Profile

Software Engineer with 11 years of experience building and maintaining high-quality mobile and backend solutions. I specialize in native mobile development (Android: Kotlin/Java, iOS: Swift/Objective-C), cross-platform development with Flutter, and backend engineering using .NET.

I focus on clean architecture, performance, security best practices, and long-term maintainability, working across the full software development lifecycle. With an ownership mindset and strong collaboration skills, I contribute hands-on development and technical leadership to deliver secure, scalable products that drive real business value.
